

Avalon by Devoteam is a dynamically expanding company with strong relationships with Google and Salesforce, a leading partner for innovative workplace and cloud solutions. Currently we are looking to expand our Google Cloud Platform consulting capabilities in Stockholm.

We are constantly innovating not only our client's businesses but also our own. Our goal is to be one step ahead and to build valuable partnerships with the digital leaders. To be in the forefront we need to have the best talents in our team. That's why we have a special approach to our employees.

We believe in an open company culture and relations built on trust. We support our team members in their development, certifications and additional education to deepen their expertise.

The 3 pillars that make us a unique company are:

- **Curiosity** - we are curious about people, technology, and business
- **Trust** - our relationships are built on trust, empowering us to work as a single, cohesive organisation towards our goals
- **Courage** - we have courage to challenge ourselves, our customers, and our partners.

About the team:

Our cloud services team helps our customers big and small move to the cloud. The team is an extension of our customers' internal IT and development teams, aiding them in the management of their SaaS, IaaS, and PaaS environments. The team is passionate about moving to the cloud and helping our customers plan and execute their cloud strategies.

About the role:

As a Continuous Delivery Manager at Avalon Solutions you will be part of a unit of highly skilled individuals. You will primarily work with our developers (and our clients' developers) implementing Google Cloud Platform (GCP) solutions. As a continuous delivery manager you will work closely with project owners to ensure effective delivery of software to our clients. The projects vary in size and length and you will work both in-house at our office and on customer sites.

Typical daily tasks

- Design and implement efficient development delivery processes internally and at client sites
- Customer interactions. Supporting sales and discussing needs with customers on cloud solutions
- Proposing viable long term, cost effective cloud solutions for customers

- Analysing needs and writing requirements
- Coaching of development team in agile methodology
- Suggest and develop our own services based on GCP

Qualifications:

- BA/BS in Computer Science or related technical field, or equivalent experience
- Experience with Lean and Agile software development methodologies
- Experience with development team tools e.g. JIRA, Trello
- Working experience with GCP or another public cloud provider
- Experience in coaching and leading development teams
- Fluency in English
- Fluency in an additional language: Swedish, Norwegian, or Danish

Additional Qualifications:

- These are not necessary skills but will put you above other candidates:
- Knowledge in one or more development languages, such as Java, Python, Javascript, Go, PHP or similar
- Experience with infrastructure automation tools such as Terraform, Ansible, or similar
- Experience with container technologies such as Docker, Kubernetes, or similar
- Experience with monitoring tools, logging infrastructure, QA methodology, and tracing frameworks

Avalon by Devoteam is a full-scale cloud solutions partner, operating in Europe and beginning its expansion in Asia. Our mission is to add value to our customers by delivering a digital workplace based on sustainable solutions from leading innovative partners like Google and Salesforce, among others. This is achieved by our business-oriented teams, passionate tech experts and our strong company culture that make our employees excel.
