Avalon by Devoteam is a leader in innovative workplace and cloud solutions, and part of the Devoteam group - the #1 EMEA Google Cloud partner. Currently we are looking to expand our Technical Cloud Consulting capabilities in Stockholm.

We are constantly innovating not only our client's businesses but also our own. Our goal is to be one step ahead and to build valuable partnerships with the digital leaders. To be in the forefront we need to have the best talents in our team. That's why we have a special approach to our employees.

We believe in an open company culture and relations built on trust. We support our team members in their development, certifications and additional education to deepen their expertise.

The 3 pillars that make us a unique company are:
- Curiosity - we are curious about people, technology, and business
- Trust - our relationships are built on trust, empowering us to work as a single, cohesive organisation towards our goals
- Courage - we have the courage to challenge ourselves, our customers, and our partners.

About the Team:
Our cloud services team helps our customers big and small move to the cloud. The team is an extension of our customers' internal IT teams, aiding them in the management of their G Suite, Salesforce, and other SaaS environments. Cloud Consultants perform deployments and migrations of complex IT-environments. The team is passionate about moving to the cloud and helping our customers plan and execute their cloud strategies.

About the Role:
As a G Suite Solution Engineer you will work on customer projects to tackle their technical challenges. You will be focused on configuring and deploying G Suite and other SaaS applications to our customers. The most successful candidates will also have an ambition to master multiple products from our partner portfolio, and further develop their technical management skills to work as an architect towards customer projects. You will sit in our Stockholm office, and work towards all of Avalon Solutions' customers globally.

Qualifications:
You're a fast learning technical resource with previous experience working in and/or supporting cloud application environments. In-depth knowledge around G Suite, E-mail Servers, Microsoft Exchange, AD, and ADFS are all a plus. You should have excellent communication and presentation skills, looking to be in a customer-facing role. You must be technically proficient and able to address technical challenges.

Other qualifications:
- Fluency in Swedish and English

Preferred qualifications:

- BA/BS degree in Computer Science or equivalent practical experience.
- Experience with SaaS, PaaS, IaaS, and other Cloud technologies.
- Existing Google Cloud, Okta, or Salesforce Certifications
- Experience in a technical consulting role

Avalon Solutions is a full-scale cloud solutions partner, operating in Europe and beginning its expansion in Asia. Our mission is to add value to our customers by delivering a digital workplace based on sustainable solutions from leading innovative partners like Google and Salesforce, among others. This is achieved by our business-oriented teams, passionate tech experts and our strong company culture that make our employees excel.
